OUTDOOR RUGS COLLECTION

Defining outdoor spaces with elegance

A rug has the power to transform a space. It defines an area. creates intimacy and introduces the warmth typically associated with interior living.

Our outdoor rug collection is designed to bring this same sense of comfort and sophistication outdoors. Whether placed beside a pool. on a panoramic terrace or within a garden lounge. each rug becomes a refined architectural element that enriches the outdoor experience.

Hand-tufted using innovative synthetic fibers. our rugs are engineered to resist sunlight. rain. humidity and frequent washing while preserving the richness of their colors and textures over time.

Crafted around your vision

Every rug can be created entirely to measure and customized according to your design requirements.
Dimensions. colors. patterns and decorative motifs can be tailored to reflect the identity of a private residence. hospitality project or yacht. The advanced fiber technology allows exceptional freedom of expression. enabling the creation of bespoke designs without compromising durability and outdoor performance.
The result is a unique piece that combines artisan craftsmanship. contemporary design and the technical reliability required for outdoor living.
