EXPERTISE / YACHTING

DFN: Bespoke Outdoor Excellence for Yachting

DFN specializes in **tailor-made outdoor furniture**, designed to combine refined aesthetics with uncompromising performance. Our expertise covers the entire process - **from engineering and production to installation** - ensuring solutions that perfectly integrate with the stylistic vision of each yacht project.

Every element is crafted using premium marine-grade materials such as stainless steel, teak, marble, and advanced protective coatings. Extending and lifting mechanisms are often integrated to enhance both **functionality and elegance**, creating outdoor spaces that are as durable as they are sophisticated.

Working in close **synergy with shipyards and designers**, DFN provides technical know-how and artisanal mastery to deliver innovative and reliable solutions. This **unique blend of engineering precision and Italian craftsmanship** allows us to transform ambitious concepts into timeless realities at sea.

DFN: l'eccellenza dell'outdoor su misura per la nautica

DFN è specializzata nella realizzazione di **arredi outdoor bespoke**, in cui estetica raffinata e performance si fondono senza compromessi. Seguiamo l'intero processo - **dall'ingegnerizzazione alla produzione fino all'installazione** - garantendo soluzioni che si integrano perfettamente con la visione stilistica di ogni progetto nautico.

Ogni elemento viene realizzato con materiali marini di altissima qualità, come acciaio inox, teak, marmo e speciali rivestimenti protettivi. Spesso integriamo meccanismi di estensione e sollevamento che arricchiscono **la funzionalità e l'eleganza**, dando vita a spazi esterni tanto resistenti quanto sofisticati.

Grazie a una **stretta collaborazione con cantieri e designer**, DFN unisce know-how tecnico e maestria artigianale per offrire soluzioni innovative e affidabili. È questa **sintesi di precisione ingegneristica e artigianato italiano** che ci permette di trasformare idee ambiziose in realtà senza tempo sul mare.
